Index to Volume 15, 1994

Contents

1 Shulgina, I. N., Burdykina, M. D., Basov, V. A. and Århus, N., Distribution of ammonites, foraminifera and dinoflagellate cysts in the Lower Cretaceous reference sections of the Khatanga Basin, and Boreal Valanginian biogeography

17 Kennedy, W. J. and Juignet, P., A revision of the ammonite faunas of the type Cenomanian, 5. Acanthoceratinae *Calycoceras* (*Calycoceras*), *C.* (*Gentoniceras*) and *C.* (*Newboldiceras*)

59 Ion, J. and Szasz, L., Biostratigraphy of the Upper Cretaceous of Romania

89 Golovneva, L. B., The flora of the Maastrichtian–Danian deposits of the Koryak Upland, Northeast Russia

101 Matsukawa, M. and Obata, I., Dinosaurs and sedimentary environments in the Japanese Cretaceous: a contribution to dinosaur facies in Asia based on molluscan palaeontology and stratigraphy

127 Archangelsky, S., Bellosi, E. S., Jalfin, G. A. and Perrot, C., Palynology and alluvial facies from the mid-Cretaceous of Patagonia, subsurface of San Jorge Basin, Argentina

143 Lamolda, M. A., Gorostidi, A. and Paul, C. R. C., Quantitative estimates of calcareous nannofossil changes across the Plenus Marls (latest Cenomanian), Dover, England: implications for the generation of the Cenomanian–Turonian Boundary Event

165 Markevitch, V. S., Palynological zonation of the continental Cretaceous and lower Tertiary of eastern Russia

179 Haslett, S. K., Planktonic foraminiferal biostratigraphy and palaeoceanography of the Cretaceous–Tertiary boundary section at Bidart, southwest France

193 Prámparo, M. B., Lower Cretaceous palynoflora of the La Cantera Formation, San Luis Basin: correlation with other Cretaceous palynofloras of Argentina

205 Dogra, N. N., Singh, R. Y. and Kulshreshtha, S. K., Palynostratigraphy of infra-trappean Jabalpur and Lameta Formations (Lower and Upper Cretaceous) in Madhya Pradesh, India

217 Peza, L. H. and Pirdeni, A., Cenomanian–Turonian boundary in the Mirdita zone, Albania

227 Ayyasami, K., Discussion of a paper previously published: 'Cretaceous palaeogeography of the Indian Subcontinent: a Review', by S. K. Acharrya and T. C. Lahiri

229 Acharyya, S. K. and Lahiri, T. C., Reply

232 Ayyasami, K., Additional discussion

238 Acharyya, S. A. and Lahiri, T. C., Further reply

241 Editorial note

243 Chen, P. and Mateer, N. J., Editorial

245 Chen, P. and Chang, Z., Nonmarine Cretaceous stratigraphy of eastern China

259 Chen, P., Cretaceous conchostracan faunas of China

271 Ma, Q., Nonmarine Cretaceous bivalve assemblages in China

285 Ye, C., Succession of Cypridacea (Ostracoda) and nonmarine Cretaceous stratigraphy of China

305 Lin, Q., Cretaceous insects of China

317 Cao, Z., Early Cretaceous floras in Circum-Pacific Region of China

333 Li, W. and Liu, Z., The Cretaceous palynofloras and their bearing on stratigraphic correlation in China

367 Jerzykiewicz, T. and Norris, D. K., Stratigraphy, structure and syntectonic sedimentation of the Campanian 'Belly River' clastic wedge in the southern Canadian Cordillera

401 El-Nakhal, H. A. and El-Naggar, Z. R., Review of the biostratigraphy of the Aruma Group (Upper Cretaceous) in the Arabian Peninsula and surrounding regions

417 Császár, G. and Árgyelán, G. B., Stratigraphic and micromineralogic investigations on Cretaceous Formations of the Gerecse Mountains, Hungary and their palaeogeographic implications

435 Chlonova, A. F., Strepetilova, V. G., Purtova, S. I. and Strepetilova, T. G., Changes in composition of palynological assemblages from Cretaceous deposits of the eastern part of the West Siberian Plain

445 Jaillard, E., Feist, M., Grambast-Fessard, N. and Carlotto, V., Senonian–Paleocene charophyte succession of the Peruvian Andes

457 Cecca, F., Pallini, G., Erba, E., Premoli-Silva, I. and Coccioni, R., Hauterivian–Barremian chronostratigraphy based on ammonites, nannofossils, planktonic foraminifera and magnetic chrons from the Mediterranean domain

469 Kennedy, W. J. and Juignet, P., A revision of the ammonite faunas of the type Cenomanian 6. Acanthoceratinae (*Calycoceras* (*Proeucalycoceras*), *Eucalycoceras*, *Pseudocalycoceras*, *Neocardioceras*), Euomphaloceratinae, Mammitinae and Vascoceratidae

507 Razgallah, S., Philip, J., Thomel, G., Zaghbib-Turki, D., Chaabani, F., Ben Haj Ali, N. et M'Rabet, A., La limite Cénomanien–Turonien en Tunisie centrale et méridionale: biostratigraphie et paléoenvironnements

535 Peybernès, B. et Combes, P.-J., Stratigraphie séquentielle du Crétacé basal (intervalle Berriasien–Hauterivien) des Pyrénées centrales et orientales franco-espagnoles

547 Wright, C. W. and Kennedy, W. J., Evolutionary relationships among Stoliczkaiinae (Cretaceous ammonites) with an account of some species from the English *Stoliczkaia dispar* Zone

583 Walter, B., Une faune en milieu détritique côtier: les bryozoaires hauteriviens d'Ancerville, Meuse (est du Bassin de Paris)

599 Coccioni, R. and Monechi, S., New biostratigraphic data on the Monte Soro Flysch (Western Maghrebian Chain, Sicily)

625 Barbieri, R., Foraminiferal palaeoenvironmental constraints in the Sirt Shale (late Campanian–early Maastrichtian) transgressive succession of the Hameimat Basin, northern Libya

645 Coccioni, R. and Premoli Silva, I., Planktonic foraminifera from the Lower Cretaceous of Rio Argos sections (southern Spain) and biostratigraphic implications

689 Molnar, R. E. and Wiffen, J., A Late Cretaceous polar dinosaur fauna from New Zealand

707 Paul, C. R. C., Mitchell, S. F., Marshall, J. D., Leary, P. N., Gale, A. S., Duane, A. M. and Ditchfield, P. W., Palaeoceanographic events in the Middle Cenomanian of Northwest Europe

739 Keupp, H. and Mutterlose, J., Calcareous phytoplankton from the Barremian/Aptian boundary interval in NW Germany

Short communication

765 Jagt, J. W. M. and Kuypers, M. M. M., A note on *Hoploscaphites pungens* (Binckhorst, 1861) (Cretaceous Ammonoidea)

503 *Book review*

505 *Announcement*
